Professional Summary

Software Developer with experience in designing, developing, and maintaining enterprise applications. Skilled in building RESTful APIs, optimizing databases, and developing scalable, business-critical enterprise applications.

Professional Experience

- Junior Software Developer — May 2025 – Present
  AkijBashir Group — Dhaka, Bangladesh
  - Developed and maintained enterprise applications using ASP.NET Core Web API, ASP.NET MVC, Angular, Blazor, and Windows Forms.
  - Designed, developed, and maintained scalable RESTful APIs and backend services for enterprise web and mobile applications.
  - Designed and optimized Microsoft SQL Server databases, including stored procedures, complex queries, and SSRS reports for business-critical applications.
  - Collaborated with business stakeholders, factory personnel, and management to gather requirements, analyze business processes, and deliver scalable software solutions.
  - Participated in the complete software development lifecycle, including requirement analysis, system design, development, testing, deployment, and production support.
  - Enhanced enterprise applications by developing new modules, optimizing existing features, resolving production issues, and improving application performance and reliability.
  - Contributed to the continuous development and maintenance of the Flow360 enterprise platform, supporting multiple AkijBashir Group business units.

- Intern – ASP.NET — Nov 2024 – Jan 2025
  BJIT — Dhaka, Bangladesh
  - Developed and enhanced ASP.NET-based web applications under senior developer guidance.
  - Implemented backend features using ASP.NET Core Web API, Entity Framework Core, and Microsoft SQL Server.
  - Collaborated with cross-functional teams using Git-based version control and Agile development practices.

- Academic Assistant, Department of CSE — Dec 2022 – Jul 2023
  Green University of Bangladesh — Dhaka, Bangladesh
  - Assisted the Dean of the Faculty of Science and Engineering in academic and administrative activities.
  - Mentored undergraduate students in programming, software development, and academic projects.
  - Conducted practical programming sessions and provided technical guidance for coursework and laboratory activities.

Technical Skills

Programming Languages: C#, JavaScript, TypeScript, SQL

Web Technologies: HTML5, CSS3, Bootstrap, jQuery, AJAX

Frameworks & Technologies: ASP.NET Core Web API, ASP.NET MVC, Angular, Blazor, Windows Forms (WinForms), Entity Framework Core, ADO.NET, LINQ

Databases & Reporting: Microsoft SQL Server, Stored Procedures, SSRS

Tools: Visual Studio, Visual Studio Code, Git, GitHub, Swagger, Postman

Software Engineering: RESTful APIs, Object-Oriented Programming (OOP), SOLID Principles, Design Patterns, Dependency Injection, Authentication & Authorization

Projects

- Akij Glass Industries Ltd. Production Software
  - Developed a factory-level production system from scratch, handling client meetings, end-user requirements, and top management interactions. Implemented complex reporting and reliable workflows to support real-time factory operations.
- Akij Bathware Production Software
  - Designed and implemented production software from the ground up, visiting the factory, gathering end-user requirements, and collaborating with management. Delivered accurate, complex reports and streamlined production workflows.
- Feedback - Service Management System (Akij Bashir Group)
  - Built a live after-sales service management system from scratch, managing client interactions, end-user requirements, and executive-level discussions. Collaborated with the mobile app team by providing guidance and developing necessary APIs, delivering comprehensive reporting and improving workflow efficiency across multiple units.
- Akij Biax Films Production System
  - Developed new modules, enhanced existing features, and maintained real-time factory applications to improve efficiency and system performance.
- Akij Ceramics Production System
  - Extended and upgraded existing production software by adding new modules and optimizing ongoing factory processes.
- Sales Management System
  - Developed and maintained enterprise sales management applications supporting customer order processing, production planning, finished goods management, challan generation, and business reporting. Led the development and maintenance of the Sales Management System for Akij Particle Board (Board & Door) and developed the Sales Module for Akij Polymer. Contributed to modules for Akij Cables, Akij Glass, Akij Ceramics, Akij Sanitaryware, and Akij Bathware, including SSRS report integration, feature enhancements, and ongoing system maintenance.

Educational Background

- Green University of Bangladesh, Dhaka — 2020-2024
  Bachelor of Science, Dept. of CSE — 3.91/4.00
- Rajbari Govt. College, Rajbari, Dhaka — 2017-2018
  Higher Secondary Certificate, Dept. of Science — 3.92/5.00

Achievements

Academic Excellence	Recipient of 7 Vice Chancellor's Awards, 1 Dean's Award, and 1 Meritorious Award for outstanding academic performance.
IEEE Xtreme 17.0	Ranked 13th nationally and 1807th globally in the IEEE Xtreme 17.0 Programming Competition.
